# About MindMap Digital

MindMap Digital is a 14-year-old Digital Transformation enablement services and consulting organization helping its customers in rapidly assessing their state of digital operations, assessing processes for digital maturity and supporting sustainable and scalable end to end transformation leveraging RPA, IDP, OCR , Analytics and AI.

 <b>60+ Enterprise Clients</b>	 <b>75+ Functional &amp; IT Experts</b>	 <b>4.75 Million Documents processed by our OCR</b>	 <b>50K Hours of Transformation</b>
 <b>ROQS Proprietary Process Assessment Framework</b>	 <b>200+ Process Mapped</b>	 <b>100+ Use Cases</b>	 <b>75% Efficiency Improvement</b>

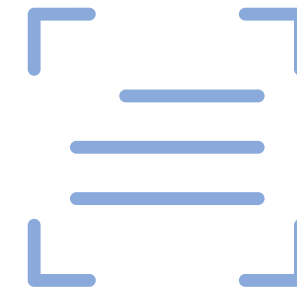

We are a legal entity in UAE, India & United States of America and operate from all these locations.

# MindMap Service Offerings

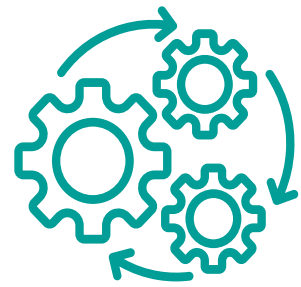

## Consulting - Digital Transformation Roadmap

6 months worth of assessments in 6 weeks using ROQS with self-funded transformation roadmap

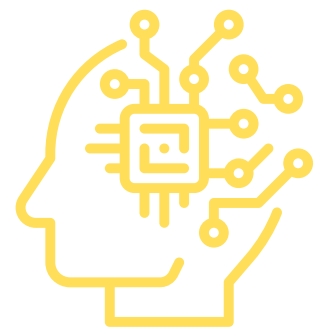

## Proprietary OCR & IDP Services

Harness the power of our OCR / Intelligent Document Processing (IDP) to revolutionize document management. Transform unstructured data into structured, actionable insights for enhanced business performance.

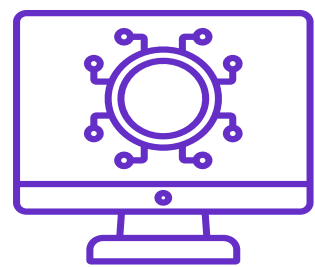

## Robotics Process Automation CoE

Automation Anywhere, UiPath and Microsoft Power Apps RPA CoE with out-come based pricing

## AI & Cognitive Intelligence CoE

Generative AI, Computer Vision and Deep Learning based full stack AI Product and Algo development CoE

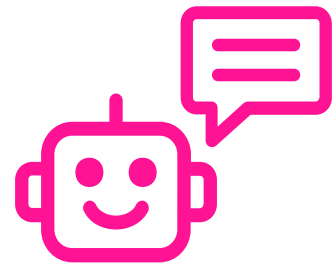

## AI Based Cognitive Platforms

1. NLP based IDP Platform as a Service
2. AI Interviewer platform
3. On-Prem Enterprise LLM Chat bot. Chat bot Automation Platform
4. DocuMaze – Data exploration platform

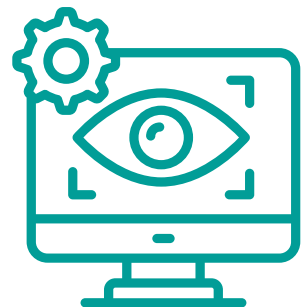

# MindMap AI Eco-System

## Be-spoke AI Services

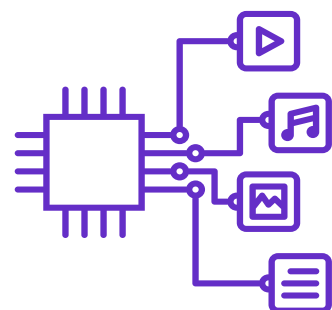

### 1. AI & NLP based Chatbot Development

Utilizing AI and NLP, we develop advanced chatbots for seamless interaction, enhancing user experiences across platforms with personalized customization.

### 2. Computer Vision, OCR & IDP

Our service offers Computer Vision, OCR, and IDP solutions, empowering businesses with advanced image recognition capabilities for streamlined operations.

### 3. Generative AI & Enterprise LLM

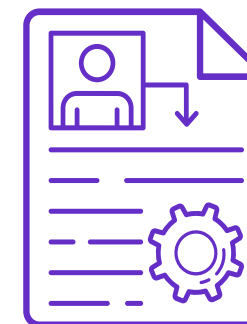

We provide Generative AI solutions integrated with Enterprise LLM to foster innovation and drive efficiency in your organization's operations.

## Ready Platforms & Accelerators

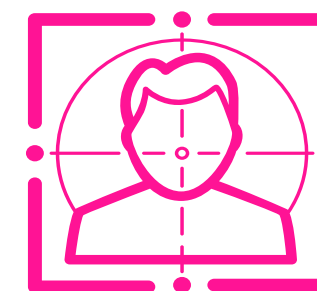

### 1. AI Interviewer

Conduct interviews autonomously and provide feedback, eliminating the need for human intervention – Solve the L1 & L2 interview challenge

### 2. DocuMage

DocuMage's groundbreaking ability to comprehend text, video, and audio files sets it apart from conventional tools, allowing it to cater to various industry needs.

### 3. Face Math

State of the Art facial matching technology with 99%+ accuracy – Integrate facial recognition and matching in your applications

**50+ Accelerators and IPs**

# MindMap DocuMaze IDP Platform

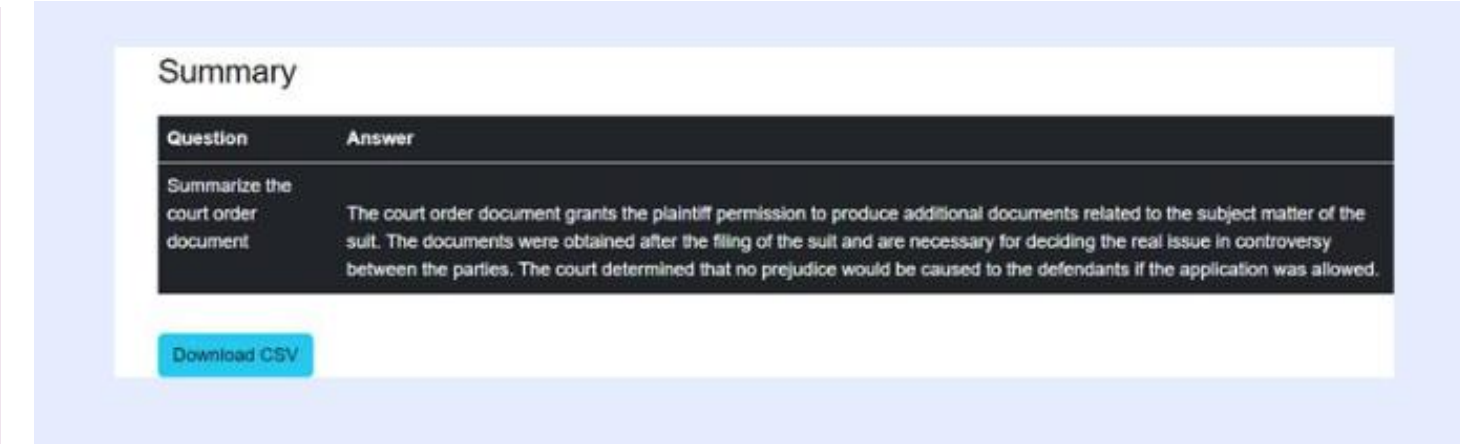

Imagine the power to unlock, understand, and utilize the hidden intelligence within any document, video, or audio file in a matter of seconds. DocuMaze is a **revolutionary IDP assistant that can read, analyze, and summarize complex information tailored to your needs.**

**Step 1: Ingest and Initialize**

**Step 2: Query and Communicate**

**Step 3: Retrieve and Reiterate**

## **Intelligent 'File' Analysis:**

DocuMaze uses advanced machine learning algorithms and natural language processing to read, analyse, and summarize complex documents, whether text, audio, or video. This includes interpreting legal documents, scientific papers, contracts, and more.

## **On-Premises Installation**

Recognizing the need for enhanced security and compliance, DocuMaze offers an On-Prem installation option. This ensures that sensitive data remains within the organization's firewall, providing an added layer of control and privacy.

## **Integration with Existing Systems**

DocuMaze is designed with compatibility in mind, allowing seamless integration with various existing organizational tools and systems. This ensures a smooth workflow and allows for easy access to analysed and summarized content.

## **Multilingual Support**

DocuMaze supports multiple languages, offering flexibility in processing documents from around the world. Whether it's translating content or summarizing information in different languages, this feature caters to global organizations' needs.

# DocuMaze Use Cases

## Telecom

- Customer Contract Analysis
- Network Infrastructure Documentation
- Billing Data Extraction
- Compliance Reporting

## Retail

- Invoice Processing
- Inventory Documentation
- Customer Feedback Analysis
- Supplier Contract Management

## Healthcare

- Medical Record Digitization
- Insurance Claim Processing
- Prescription Analysis
- Regulatory Compliance

## BFSI

- Loan Document Processing
- Fraud Detection Analysis
- Investment Contract Management
- Regulatory Compliance
- Risk Assessment Analysis
- Customer Onboarding Documentation

## Manufacturing

- Product Blueprint Archiving
- Quality Control Documentation
- Supply Chain Contract Analysis
- Maintenance Record Extraction
- Compliance & Regulatory Reporting

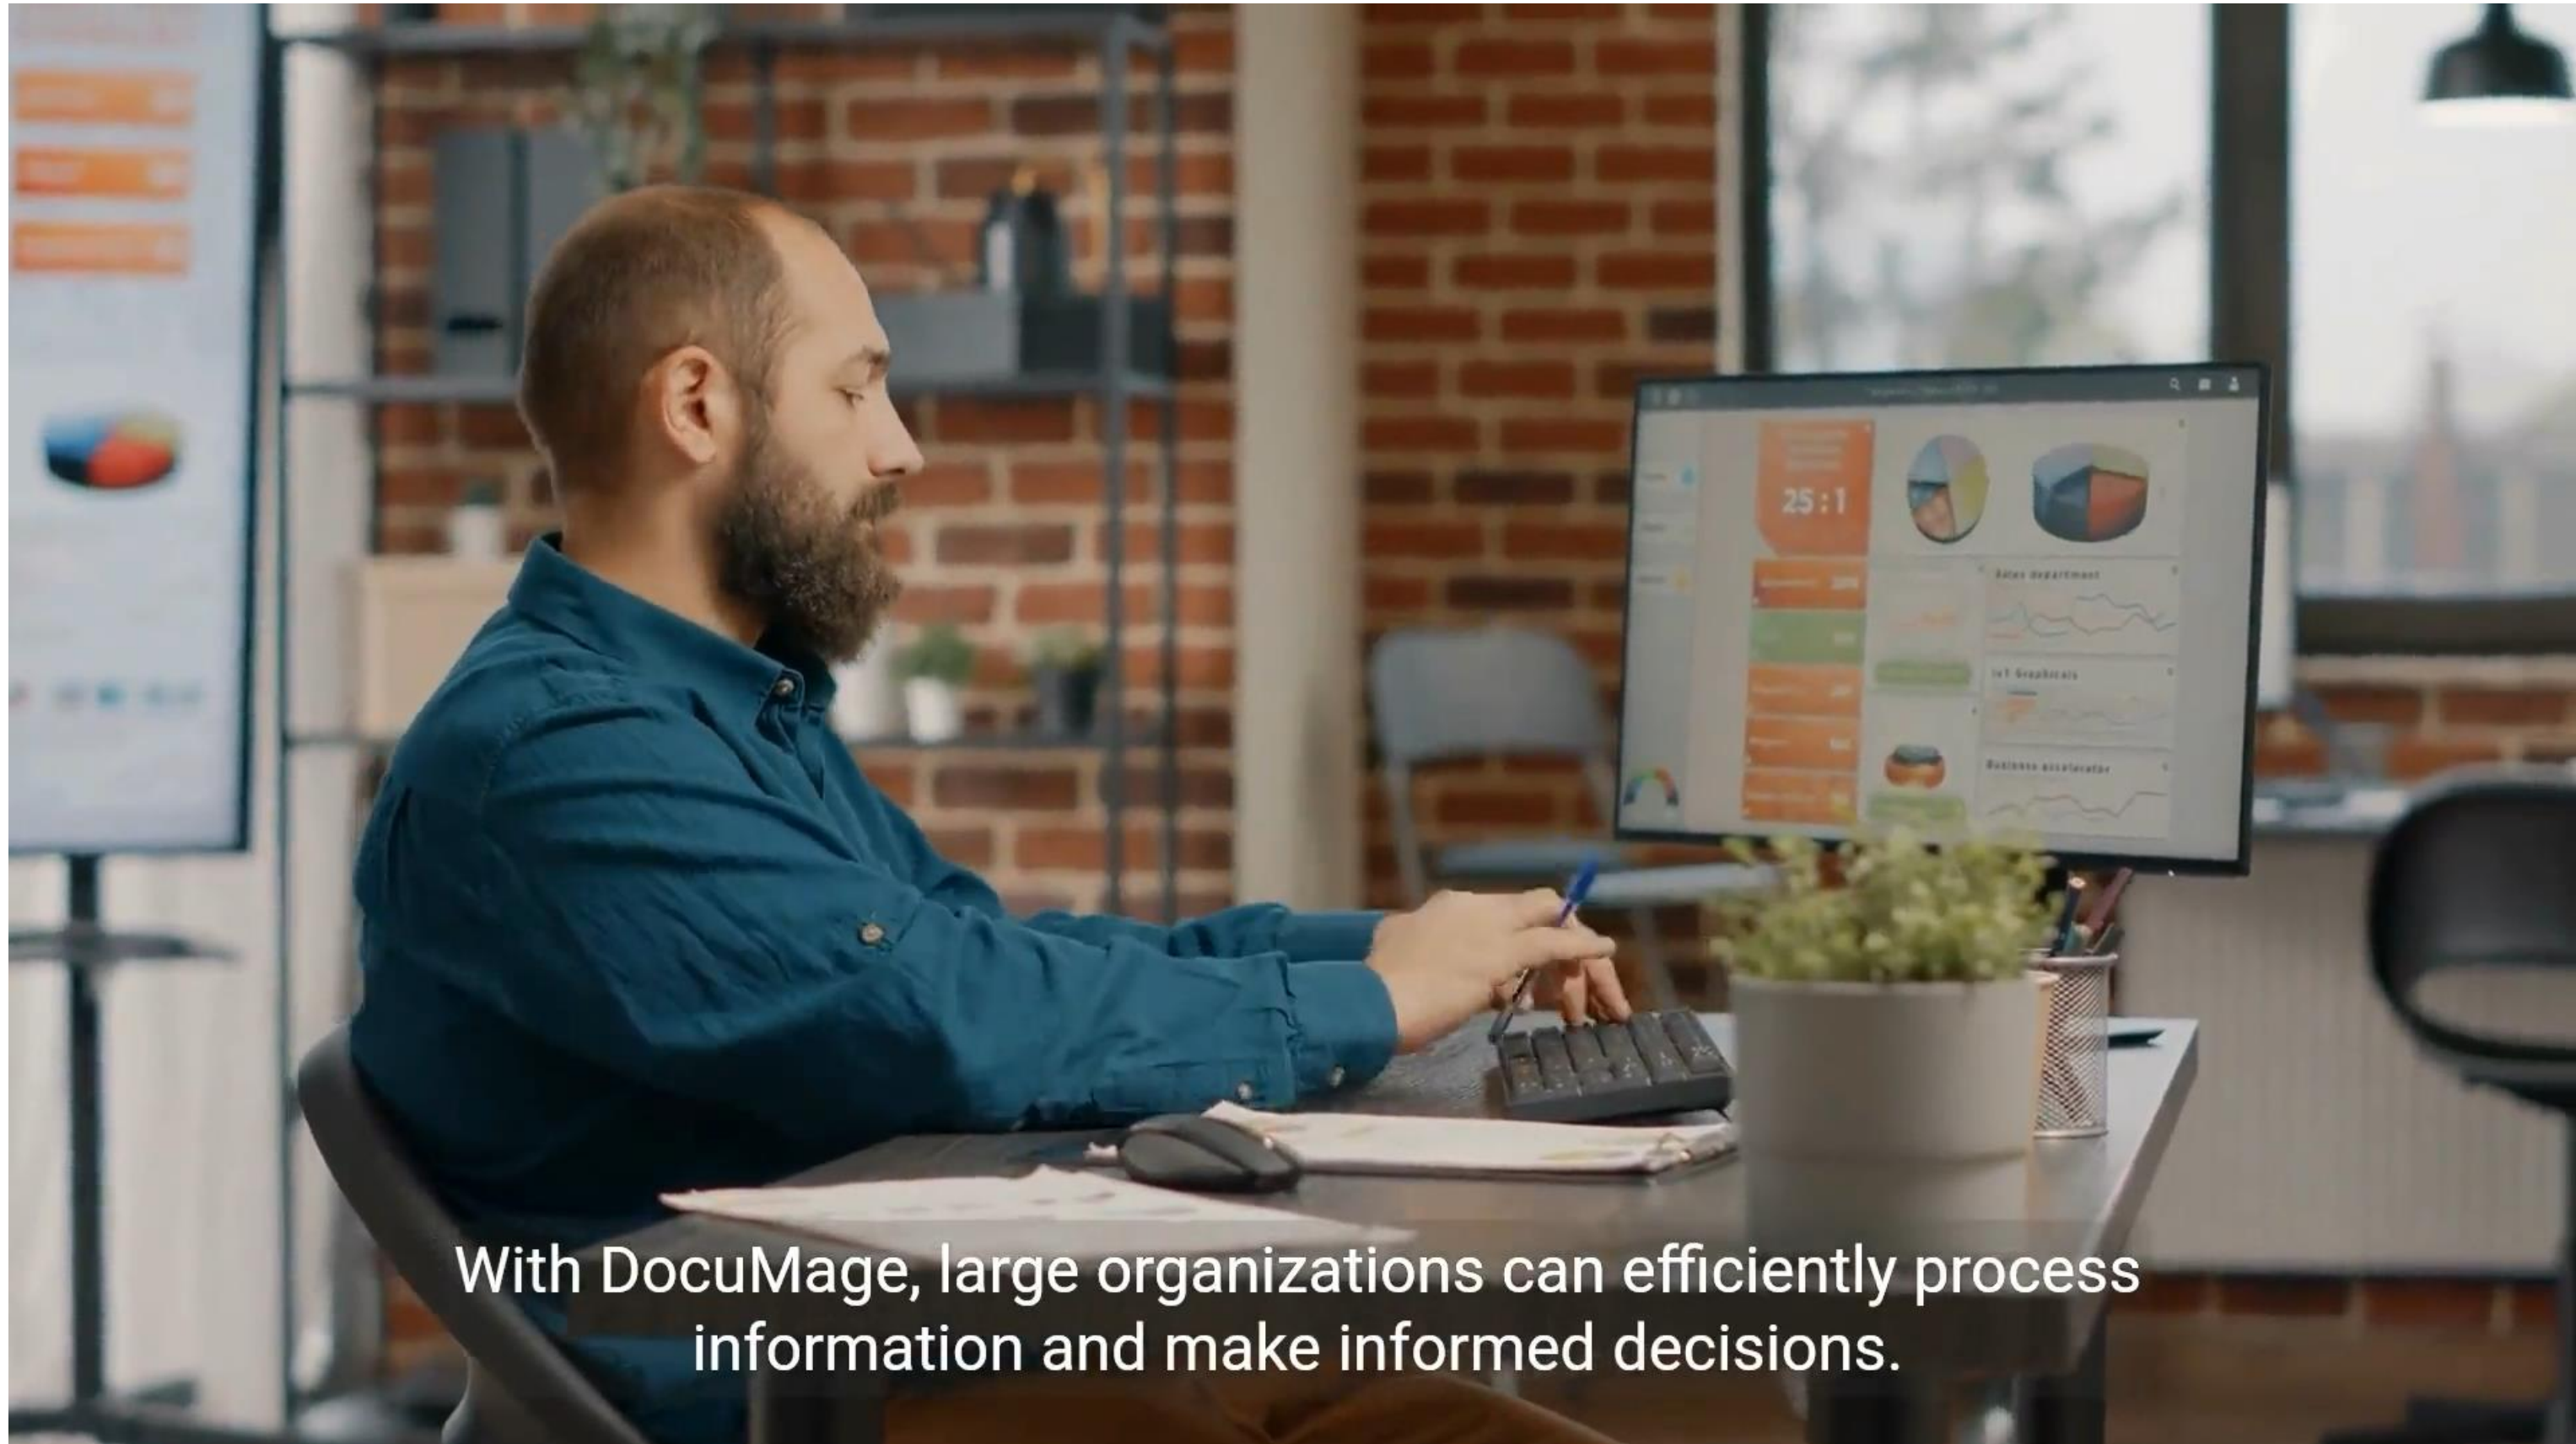

## Government and Legal

- Public Record Management
- Legal Documentation
- Tax Compliance Analysis
- Finance & Accounting
- Citizen Feedback Processing
- E-Governance Document Processing

# See DocuMaze in Action

With DocuMage, large organizations can efficiently process information and make informed decisions.
