About Us

India's First Accounting Process Automation Platform

For the first time in India, we are building a SaaS based pre-accounting platform which will bring businesses and accountants together for seamless communication and sharing of financial information. It will help you make book-keeping paperless. We provide a multi-user and multi-entity solution.

Our Mission

Expand earning opportunities for accountants

Optimize accounting cost for small businesses

Buktec – Book keeping Technology is built by and for people who are tired of spending time in non-productive activities in the accounting process.

Buktec is designed by finance consultants, accountants, experienced product designers and enthusiast coders to bring the best solution to you.

We aim to elevate pre-accounting to the next level.
