

Proposal for AI Bot for ICAI

Following is our Proposed Bots

- Bot to consolidate and process bulk data
- Data includes payment advice from payment Gateways
- Purchase from online vendors, where invoices come in standard format in mail
- Huge manpower is generally employed to process such data. This task can be easily automated with bot
- Following is the final outcome
 - Receipt of Invoice or Payment invoice in Mail
 - Bot will pick data from Mail
 - Prepare Excel Summary
 - Prepare customized report
 - Prepare template to be updated in accounting software

Proposal for AI Bot for ICAI

- This all can be done once and will be executed without pressing of any button
- Once the workflow is done nothing more needs to be done
